STEP 4 – Answer The 4 Quick Questions

ChatGPT will greet you and ask:

1. What is your course about?
2. Who is the course for?
3. What is the name of your course? (or type "suggest some" for ideas)
4. How long should the course be? (Short, Standard, or Comprehensive)

STEP 5 – Build Your Course

After Question 4, ChatGPT delivers your Course Opening and Lesson 1.1 right away. Every lesson ends with clear instructions telling you exactly what to type next.

THE FLOW

- Type "continue" after each lesson to get the next one
- After all modules are done, type "continue" to move to the Sales Page
- ChatGPT then guides you through Step 3 (emails), Step 4 (logo), and Step 5 (ecover)
- Each step asks 1-3 quick questions

TIPS FOR BEST RESULTS

- Always type "continue" when prompted
- For any tweak, just tell ChatGPT what to change (example: "rewrite Lesson 2.1 longer", "change logo to gold", "make Email 3 more urgent")
- To start a brand new course at the end, type "new course"
- Save your finished course content, sales page, and emails by copying them out of the chat

THAT'S IT!

You now have everything you need to launch a complete course. Enjoy and happy launching!
